EDUCATION

B.Tech — CSE
(Game Technology)

Galgotias University
2021 - 2025 · 7.72 CGPA

CERTIFICATIONS

- Intro to Game Design

Epic Games / Coursera, Nov 2024
- Intro to Cyber Security

CISCO Network Academy, Oct 2025
- RES Summit Organising Secretariat

Vision 2047, March 2026
- DSA Bootcamp

Galgotias University, Jul-Aug 2024

WORK EXPERIENCE

Backend Developer - Intern

Feb 2026 - Present

IIT Roorkee — RES Summit 2026

- Designed database schema and backend APIs using Prisma ORM and TypeScript for the summit's delegate management system
- Built abstract submission portal and admin panel that handled 181 delegate registrations across a 3-day, 385+ attendee summit

ML Intern

Nov 2025 - Dec 2025

WeAttach Tech

- Developed YOLOv6 object detection model for real-time monkey detection over RTSP video streams during the evaluation period

PROJECTS

Voxel Engine

Unity 6C#Procedural GenerationCustom Shaders

- Custom chunk-based mesh pipeline with seeded Perlin noise enabling scalable real-time terrain rendering
- Refactored from per-object voxel to mesh pipeline — significant performance and memory scalability improvement

Role-based Collaborative Sheets

github ↗

Next.jsReactPostgreSQLPrisma ORM

- Collaborative spreadsheet app with role-based access control, full version history, and audit logging

TCG Dice Board Game

github ↗

UnityC#Game Design

- Turn-based TCG prototype featuring card mechanics, dice interactions, board placement, and a custom charge/parity resource system

3D Model Viewer

github ↗

Next.jsThree.jsJSON

- Browser-based 3D viewer with real-time rotation and a JSON-driven annotation pin system for dynamic marker configuration

PUBLICATION

"Natural Language Processing and its Impact on Academics and on Student's Efficiency and Effectiveness"
